## OUR SEVENTH ANNUAL

full-day conference focused on girls aged 11-14, and their parents/caregivers — connecting, communicating and exploring social issues affecting all of us.

## DOOR PRIZES!!

**Girls! Bring your friends!** Find out "how you can be the best you can be" — Make an easier transition from elementary to high school and beyond.

**Parents!** Get up-to-date with current issues facing teens. Explore strategies to keep those doors of communication open between your teen and yourself.

## NEW THIS YEAR! BLIND SPOT

BLIND SPOT by Meghan Gardiner is the latest commission for teens by Green Thumb Theatre. This new play looks at the pressure teens face to become sexually active as they move toward becoming adults. It asks both girls and boys to examine the responsibilities that they have for each other's well being and to think more deeply about the potential consequences of their actions.

"This is a story that needs to be told. As long as the issue is ignored, women will continue to wake up frightened, ashamed, and terribly confused. Those victims need to know that they are not alone..."

**Workshops and resources focus on a variety of topics:  
Gardasil HPV vaccine, eating disorders, fashion, beauty, yoga and more.**
